

Now Making Dreams Possible

2024 ANNUAL REPORT

TOGETHER, WE MAKE DREAMS POSSIBLE

We are a global leader in cell therapy. Our vision is to ensure every patient receives their life-saving cell therapy and thrives. Your support makes this possible.

Since 1987, we have impacted more than 140,000 lives, thanks to a registry that now spans over nine million potential U.S. donors—once believed to be unimaginable. Taking the healthy cells of a stranger to save the life of another? People said it couldn’t be done. And yet, we’re doing it. We’re now making dreams possible. Together.

LOOK AT WHAT WE’VE ACHIEVED

- **We embarked on a new chapter with a rebranding initiative**, and our mission remains unwavering: *We save lives through cell therapy.*
- **We marked the 25th anniversary of our NMDPSM Amy Strelzer Manasevit Research Program**, proving that philanthropy can drive life-saving scientific advancements.
- **We launched the NMDP Barbara Buchbinder Nurse Research Program grant**, underscoring our commitment to supporting the critical role of nurses in research and patient care.
- **We shared early ACCESS trial findings at the American Society of Clinical Oncology Annual Meeting**, poised to revolutionize mismatched unrelated donor transplants.
- **We published significant research in the Journal of Clinical Oncology**, revealing that by using a key drug post-transplant, mismatched unrelated donor transplants have no discernible difference in outcomes compared to matched transplants, significantly expanding donor options for all patients, especially ethnically diverse patients.
- **We celebrated NMDP MéxicoSM completing its 100th transplant**, highlighting the global impact of our work.
- **We hosted our first-ever NMDP Unite:** a community celebration to find cures and save lives in Minneapolis, Los Angeles and New York, with a unique virtual experience that reached across the globe.

Your generosity fuels our mission to save lives through cell therapy and be a beacon of hope for patients and families who need us. Will you join us in building a future where every patient has a path to a cure?

Thank you for being an integral part of this incredible life-saving journey.

On the cover: After more than three years battling life-threatening blood disorders, Hailey was able to return to the activities she loves, thanks to a pair of blood stem cell transplants—and support from people like you. Read more about her story, including her on-field appearance with the Minnesota Vikings cheerleaders, on page 5.

AMY RONNEBERG
Chief Executive Officer
NMDP

“If I could tell my donor something, I would probably tell them thank you. Thank you for donating so that I could keep having Christmases, Thanksgivings, birthdays, fun and just being alive.”

- Hailey, transplant recipient

TWO TRANSPLANTS, ONE AMAZING GIRL

In February 2020, Hailey began experiencing unusual symptoms. Following alarming blood test results, more testing concluded that she had aplastic anemia.

Hailey was just 7 years old at the time of her diagnosis. Five months later, she underwent a blood stem cell transplant and afterwards struggled with complications of pneumonia and a serious staph infection. With the ongoing threat of the pandemic, Hailey and her family spent a year in isolation to protect her fragile health. Despite the challenges, she eventually returned to school, gradually getting back into the activities she loved, like competitive dance.

In May 2023, Hailey’s health began to decline, leading to a heart-breaking diagnosis of leukemia. After intensive treatment with multiple rounds of chemotherapy, another blood stem cell transplant was her best chance for a cure. Hailey received her second transplant in November 2023, one day before her 11th birthday.

It’s been over a year since then, and Hailey continues to get stronger—giving her even more reason to dance.

When Hailey was hurting, help was there

To care for her young daughter, Hailey’s mom took an unpaid leave of absence, leaving their six-person family to rely on one income for several months. But NMDP—and you—were there.

Thanks to our supporters, Hailey’s family was able to receive one of our financial assistance grants. This allowed her mom to better focus her attention on what mattered most—Hailey’s recovery.

In 2024, NMDP provided \$6.6 million in patient assistance to 3,300 families.

Hailey’s dance dreams come true

For the third season, NMDP was honored to be the beneficiary of the **Minnesota Vikings Field Goals for Charity**. For every successful Vikings field goal, Innovative Office Solutions and Post-it® Brand generously contributed essential funds to support NMDP’s mission. This exciting initiative also brought joy to Hailey, who was able to be a part of the on-field festivities.

Despite the challenges life has presented, Hailey’s passion for dance has been unwavering. She was overjoyed by the opportunity to meet, practice and appear on the field with the Minnesota Vikings cheerleaders.

Robert Del Cotto, president of the NMDP chapter at Marquette University, at our first-ever NMDP Unite: a community celebration to find cures and save lives. We hosted events in Minneapolis, Los Angeles and New York, with a unique virtual experience that reached across the globe.

¡FELICIDADES, NMDP MÉXICO!

In 2017, we expanded our operations to Mexico by establishing NMDP México to strengthen our power to beat the odds and better meet the needs of our patient population.

IN 2024, THE TEAM ACHIEVED AN INCREDIBLE MILESTONE—100 TRANSPLANTS. OVER THE COURSE OF ITS HISTORY, NMDP MÉXICO HAS MADE SIGNIFICANT STRIDES:

- Registered 183,076 potential donors
- Recruited 247 dedicated volunteers
- Impacted 100 patients' lives, families and communities

Thanks to the generosity of supporters like you, we are able to continue our life-saving work, not only locally but in communities everywhere.

FY2024 AT A GLANCE*

Big numbers. Big dreams.

What you see below are more than just impressive numbers; each one represents the support you give, the money you donate and the work you do, all in the name of making dreams possible.

7,994

LIVES IMPACTED

through cell therapy

\$6.6M

IN ASSISTANCE

provided by NMDP and
our philanthropic partners

LIVES

- **7,994** patient lives impacted through cell therapy—more than any other year since our founding in 1987
- **140,000+** lives impacted through cell therapy since 1987

RESEARCH

- **~\$12.5 million** invested since 1998 to fund **51 scholars** with the NMDP Amy Strelzer Manasevit Research Program
- **185+** ongoing research studies and clinical trials through CIBMTR® (Center for International Blood and Marrow Transplant Research®), a research collaboration between the Medical College of Wisconsin® and NMDP
- **310+** transplant centers participating in research

RECRUITMENT

- **240,000+** potential donors joined the NMDP RegistrySM
- **85,000+** ethnically diverse potential donors joined the NMDP Registry
- **42 million+** potential donors available for every patient search
- **180,000+** potential donors on the NMDP Registry in Mexico

PATIENT ASSISTANCE

- **3,300** patient families received NMDP grants to financially support them through treatment
- **\$6.6 million** in patient assistance provided by NMDP and our philanthropic partners

MISSION SUPPORT

- **17,000+** individual contributors made financial gifts to NMDP
- **\$19 million+** raised by NMDP supporters and contributors
- **\$7 million** worth of hours donated by volunteers

“Being called was like winning the lottery. I was handed a life-changing chance to save a life and there was no way I was saying no.”

- Libby, blood stem cell donor

“NMDP is the perfect intersection of science and love.”

- Bill (NMDP Foundation board member), father of Riley, transplant recipient

NMDP UNITE
IN NEW YORK CITY

JOIN THE MOVEMENT AND CELEBRATION

Mark your calendars and please join us on World Marrow Donor Day, Saturday, Sept. 20, 2025, when NMDP Unite returns. There are so many ways you can get involved and save lives. We need your help to make hope happen!

Scan for details

nmdp Unite

a community celebration to find cures and save lives

On Saturday, Sept. 21, 2024, World Marrow Donor Day, our incredible community of supporters gathered in person in Los Angeles, Minneapolis and New York—and through a unique digital experience—to make hope happen at our first-ever NMDP Unite.

Together, we celebrated the lives we've saved, the ones we've loved and the cures we've found—while supporting those still fighting blood cancers and diseases today and in the future. This joyful event was open to all, with free admission and fundraising encouraged up to the day of the event.

In-person attendees heard inspiring stories from donors, patients and supporters. They enjoyed amazing entertainment, games and activities for the whole family. Some took time to honor loved ones through meaningful memorials, while others swabbed their cheeks to join the registry, hoping to become someone's matching donor.

All proceeds from NMDP Unite went toward programs critical to our mission, including our patient assistance program, a vital lifeline that supports thousands of families through treatment each year.

TOGETHER, WE MADE AN INCREDIBLE IMPACT

- **1,245 dedicated supporters** showed up to help save lives.
- **More than \$320,000 was raised** to support patients, donors and families.
- **Six sponsors** contributed generously to our life-saving mission.

“Donors, recipients, supporters and community all celebrating together—such a joyful and inspiring event.”

– Amy, NMDP Unite attendee

NMDP Unite attendees take time out for a snuggle.

THE LIFE-SAVING UNITY OF COMMUNITY

HOSA students make a critical impact

NMDP is proud to serve as the Premier Service Project Partner of HOSA, a student organization for future health professionals. Since 2020, hundreds of HOSA chapters nationwide have united with NMDP, actively adding new potential donors to the NMDP Registry (and pre-registry for those under 18) and raising vital funds to support our life-saving mission.

In the 2023–2024 school year alone, HOSA chapters raised over \$200,000 for NMDP. And on Dec. 9, members surpassed their \$25,000 matching gift challenge from the TxMiller Foundation, with 68 chapters contributing to this remarkable achievement.

NMDP Get in the GameSM celebrates milestone achievement

In November, we recognized the 1,500th donor from our NMDP Get in the Game program who provided life-saving blood stem cells to an unrelated patient.

NMDP Get in the Game uses the influence of college athletics to recruit students to join the registry as potential blood stem cell donors. By hosting registry recruitment events, teams inspire athletes and students to sign up and make a difference in the lives of others. Since its launch, the program has partnered with over 375 colleges and universities, adding more than 240,000 potential donors to the NMDP Registry.

HOSA IMPACT SINCE 2020:

\$725,000+ raised for patients and their families

8,300+ new potential donors added to the registry

5,000+ individuals under the age of 18 have pre-registered to join the registry when eligible

At least 39 donors recruited by HOSA have gone on to donate

Students at an NMDP Get in the Game event

2024 Livermore Spirit Award winner: Mimosas for Marrow

Inspired by her daughter’s own blood disorder journey, Sam Marshall and her friend Brittany launched Mimosas for Marrow, an annual 5k supporting NMDP. To date, they and their incredible community have recruited over 1,182 supporters, added 43 members to the NMDP Registry and raised over \$45,000.

We were honored to name Mimosas for Marrow as our 2024 Livermore Spirit Award winner.

This award, named after brothers Jay and Leigh Livermore, recognizes individuals who have shown outstanding commitment to NMDP’s life-saving mission. Jay was a dedicated volunteer for our now retired Walk+Run event, raising awareness and funding to honor his brother Leigh, who received a blood stem cell transplant.

- RAISED OVER \$45,000
- RECRUITED OVER 1,182 SUPPORTERS
- ADDED 43 MEMBERS TO THE REGISTRY

Sam Marshall, co-founder of Mimosas for Marrow, and her daughter, Oakley

NMDP BioTherapiesSM donations multiply impact

Becoming an NMDP BioTherapies donor has the potential to impact not just one but hundreds of lives. However, many members of the NMDP Registry are unaware of this opportunity. To raise awareness and encourage registry members to consider becoming NMDP BioTherapies donors, NMDP, with generous support from Orca Bio, produced two videos. These videos aim to clearly explain the NMDP BioTherapies donation process and share one donor’s story.

IN 2024, 45,317 NMDP REGISTRY MEMBERS OPTED IN TO BECOME POTENTIAL NMDP BIOTHERAPIES DONORS.

Scan to watch the videos and learn more about opting in as an NMDP BioTherapies donor.

Shanon’s one donation could help dozens of people.

NATALIE, BLOOD STEM
CELL DONOR, WITH HER
RECIPIENT, KAILO

GALAS UNLOCK THE PATHS TO POSSIBILITY

In Minneapolis

On Sept. 21, more than **400 of our dedicated supporters** gathered to experience the real-life impact of our mission in one inspiring night at the NMDP Gala in Minneapolis.

As we celebrated and connected, we were collectively working toward a future where **every** patient can receive their life-saving cell therapy. **The gala raised over \$1.1 million** to fuel our work: curing blood cancers and disorders, advancing research, funding clinical trials and ensuring as many people as possible join the registry.

The event was made possible by 22 generous sponsors, including our presenting sponsor, **Innovative Office Solutions**, and premier sponsors **ePlus** and **Hollstadt Consulting**. Among the evening's most memorable moments were the Smith family honoring the legacy of their mother, Jennifer, and little Kailo meeting his donor, Natalie, for the first time.

Until recently, Kailo lived with constant caution due to a rare genetic disorder that weakens the immune system. His only hope for a cure was a blood stem cell transplant, which he received thanks to Natalie. When Kailo and his family met Natalie and her mom at the gala, there were tears, there were hugs, there were smiles. And almost two years after his transplant, there was Kailo, happy, energetic—and very busy.

In New York

On May 2, a life-saving impact was also made by nearly **360 supporters** at the NMDP Gala in New York. The event raised **over \$565,000**, setting a new record for this gala.

The presenting sponsors, **Publicis Groupe** and **Publicis Media**, continued their long-standing support, ensuring the event's success. One of the most touching moments of the evening was when blood stem cell transplant recipient Lisa met her life-saving donor, Eric, for the first time—16 years after her transplant. We were also honored to present **AstraZeneca** with the 2024 NMDP Corporate Leadership Award during the program.

"I would not have seen my children grow up had it not been for him. I am deeply grateful, and words cannot begin to describe the magnitude of his act to save the life of someone he didn't even know."

- Lisa, transplant recipient

Lisa meets her donor, Eric.

“Mary’s one of those people who walks into a room and everyone stops and listens to what Mary has to say because people have that much respect for her.”

- Steven Devine, MD, Chief Medical Officer, NMDP

Mary Horowitz, MD (left), recipient of the 2024 Laura Graves Award, and Laura Graves' sister, Christine Houldsworth

EXPANDING POSSIBILITIES

How it started

At NMDP, we understand the importance of celebrating anniversaries, birthdays and re-birthdays. Today, we’re thrilled to mark the anniversary of the transplant that started it all.

On Sept. 4, 1979, 45 years ago, 10-year-old Laura Graves received the first-ever unrelated donor transplant to treat leukemia. Her parents, Robert Graves, DMV, and his wife, Sherry, were desperate to save her life and agreed to this groundbreaking procedure. The transplant was a success, inspiring the Graveses to help other families. Thanks to Dr. Graves, other patient families, doctors, and support from Congress and the U.S. Navy, a national registry of volunteers willing to donate bone marrow was born.

How it’s going

In February 2024, NMDP announced the enrollment of **the first patient in the OPTIMIZE clinical trial**. As part of our NMDP Donor for All research initiative, the OPTIMIZE clinical trial aims to understand if adult patients who receive a lower dose of PTCy and blood stem cells from a partially matched donor will have better infection-free survival while still preventing graft-versus-host disease. This research is a game-changer for patients without a fully matched donor, many of whom are from ethnically diverse backgrounds.

NMDP’s Donor for All research initiative is made possible in part by generous funding from Gateway for Cancer Research.

NATALIE, BLOOD
STEM CELL DONOR

ADVANCING OUR MISSION

Donor financial assistance

Becoming a hero as a blood stem cell donor requires a significant time commitment. For those who don't have wage coverage benefits, NMDP typically provides reimbursement for lost wages and other financial support.

In 2024, NMDP donor financial assistance supported 447 donors and 153 donor companions, marking a 17% increase from the previous year.

Natalie joined the registry as a college student and, years later, received the call that she was a match for a patient in need. She quickly said "yes," and within weeks, she and her companion were on a three-hour flight to help save a life. Forty percent of donors have to travel to complete their donation.

Patient financial assistance

Financial concerns shouldn't keep patients from accessing potentially life-saving cell therapy—and making dreams possible. Thanks to our financial supporters, NMDP offers grants to help patients like Liam and their families.

Liam was born with Fanconi anemia, a rare genetic disorder affecting his bone marrow. His best chance for a cure was a blood stem cell transplant. His family moved from Colorado to Minnesota for the transplant, facing challenges such as costly longer-term housing and the need to live on one income.

Thanks to your support, we provided Liam's family with financial assistance, allowing them to focus on Liam's health rather than financial stress. Because with NMDP, **good goes a long way.**

IN 2024, WE PROVIDED \$6.6 MILLION IN FINANCIAL ASSISTANCE GRANTS TO 3,300 FAMILIES.

"Seeing Liam being able to be a regular kid has been the biggest blessing. The compassion each of you encompasses by supporting an incredibly important cause is immeasurable."

- Xandra, Liam's mom

Liam with his mom, Xandra

"It was really important to have the wage reimbursement benefit for me to donate with peace of mind. I am self-employed and wouldn't have been able to receive paid time off."

- Karina, blood stem cell donor

Attendees of
The ONE Forum by NMDP

ADVOCACY IN ACTION

NMDP is committed to saving lives by advancing public policies that support our mission.

2024 achievements

PUBLIC INVESTMENTS

Secured \$33 million for the C.W. Bill Young Cell Transplantation Program, matching the largest federal contribution ever.

ACCELERATING KIDS' ACCESS TO CARE ACT

Mobilized thousands of volunteers to support the act, which passed the U.S. House, simplifying out-of-state care for children receiving Medicaid.

EMPOWERING STUDENT DONORS

Developed an advocacy toolkit to help college chapters update attendance policies for student donors.

STATE POLICY WINS

Partnered with patient advocacy groups to support 13 pieces of legislation, 11 of which became laws focused on growing the national registry, enhancing support for caregivers and more.

VOLUNTEER ADVOCATE PROGRAM

Worked with advocates to build relationships with many members of Congress.

FINANCIALS

GIVING LIFE GOES FULL CIRCLE

More than 15 years after joining the registry, Dianna Cervantes received life-changing news—she was a potential match for a 13-year-old girl battling acute lymphoblastic leukemia.

Dianna and her wife, Devina, have been together for almost 25 years, building a life filled with love and purpose. Though they do not have children of their own, they saw this moment as something deeply meaningful. “We thought, somehow, this was the universe’s way of ensuring we lived on,” Devina shared.

When Dianna made the decision to donate her blood stem cells to Avery, she knew she was offering hope—but she never expected how profoundly the experience would shape her own life. Seeing firsthand the power of a single act of generosity, she and Devina became even more determined to give back. Today, as principal gift-level supporters of NMDP and with Dianna serving on the NMDP Foundation board of directors, their dedication has only grown, turning gratitude into action that helps save lives.

Last summer, Avery welcomed her first child, Jesse. Dianna and Devina were overjoyed to meet the baby, holding him close as they reflected on the incredible journey that brought them together. Today, their bond is stronger than ever—a testament to the power of resilience, generosity and the lasting impact of compassion.

Dianna, blood stem cell donor,

REGENERON'S
COMMITMENT TO NMDP

Regeneron, a philanthropic partner since 2022, recently rallied 60 volunteers, including their CEO, to label 5,000 swab kits for the NMDP Registry. Accurate labeling with QR codes ensures donor information is secure and linked correctly, allowing the recruitment team to focus on other critical tasks.

MICROSOFT MAKES DREAMS
POSSIBLE, ONE KIT AT A TIME

Led by Cass Collins, a Microsoft employee and transplant recipient, nearly 300 Microsoft employees across multiple locations dedicated 773 volunteer hours to assemble swab kits. Thanks to Microsoft's generous donation policy, the company's efforts have resulted in over \$33,000 in contributions to NMDP. If your company wants to make a life-changing impact, consider partnering with NMDP.

THANK YOU

Corporations, organizations
& foundations

These dedicated partners provide critical financial support to accelerate our mission. They are committed to saving more lives and sharing our mission with their vast networks. Listings recognize cash and pledge amounts.

MACY (CENTER), TRANSPLANT RECIPIENT, ADVOCACY AMBASSADOR AND MONTHLY CONTRIBUTOR

FROM PATIENT TO ADVOCATE: MACY’S JOURNEY

Macy Howarth deeply understands the importance of advocating for patients and the need for growing the NMDP Registry. At 39, after surviving Hodgkin disease as a teenager, Macy faced the difficult diagnosis of leukemia and learned she would need a blood stem cell transplant to save her life. Today, a decade later, Macy not only makes monthly financial contributions to NMDP but also dedicates her time as a passionate advocacy ambassador. She speaks to elected officials to ensure that others have the same access to life-saving transplants that she did. “I always question why this happened to me,” she reflects. “But I see the silver lining in my volunteer work—I am helping others who are going through this daunting process.”

THANK YOU

Volunteer fundraisers

Across the country, volunteer fundraisers step forward to connect their individual networks with NMDP’s life-saving mission. These champions have **raised \$5,000 or more** through peer-to-peer fundraising or hosting a local event within their community.

THANK YOU

Volunteers

In 2024, NMDP volunteers **donated more than 210,000 hours of service**—a value of \$7 million. We are grateful for these dedicated individuals who’ve each given 100 or more hours of their time.

NICKI SEBASTIAN,
FUNDRAISING SUPERSTAR

STEPS TOWARD A CURE

Nicki Sebastian has been an avid distance runner for most of her life. Almost two decades ago, she ran her first marathon and raised significant funds for the fight against blood cancer. After three more marathons and two kids, she was diagnosed with acute myeloid leukemia. Overnight, she became a patient, fighting for her life and receiving the support she once helped make possible. In remission for almost three years, Nicki ran her first half-marathon as an NMDP team member, raising over \$10,000. She ran to support groundbreaking research, ease the financial burden on patients and honor those who have lost their battles.

THANK YOU

Gift-in-kind contributors

In-kind donations allow us to allocate more resources to directly serve our patients. These supporters have given **goods or services valued at \$1,000 or more** to support our mission and offset necessary expenses.

Ace Electrical Contractors, Inc.	Connor Glenn
Altamarea Group	Heidi L. Hoyt

Heather Fountain	James L. Wallace

THE GIFT OF MORE TIME

Jack and Mary Barto, a couple who shared more than 40 years of love, faced their greatest challenge when Mary was diagnosed with myelodysplastic syndrome in 2022. Although she found a donor and underwent a transplant in May 2023, her underlying condition worsened, and she passed away in October. To honor her, Jack fundraised by running in the Walt Disney World® Marathon Weekend, raising over \$24,000 for NMDP. His efforts support growing the donor registry and funding critical programs, giving patients more time with their loved ones and reflecting his belief that life and hope are the greatest gifts we can give.

Jack and Mary Barto

WCCO HELPS MAKE DREAMS POSSIBLE

In May, News Talk 830 WCCO hosted the Cure Blood Cancer Radio Auction for the second year in a row, benefiting NMDP. The event was inspired by WCCO Radio personality Jordana Green, who received a blood stem cell transplant to treat her leukemia. The 12-hour broadcast celebrated the second anniversary of Jordana's transplant and featured a heartfelt first-ever meeting with her blood stem cell donor, Matt.

The auction was a resounding success, raising over \$105,000 to support patients, donors and their families.

Every dollar raised will contribute to expanding and diversifying the NMDP Registry, supporting groundbreaking research to help patients live longer, healthier lives and funding patient assistance grants to remove financial barriers to treatment.

Matt donated blood stem cells to WCCO's Jordana Green
