

At work in Texas

NMDPSM is a leader in cell therapy, helping to find cures and save lives for patients with blood cancers and disorders. We're expanding access so that every patient can receive their life-saving cell therapy. Here's what our work looks like in your state:

State impact

6,231 searching patients

from 2021-25

2,295 transplants

from 2021-25

1,493 donors

answered the call from 2021-25

813,691 residents

willing to donate

Your support helps push the boundaries of what's possible.

From the moment a patient is diagnosed, we're there throughout the transplant journey. We create more opportunities for better outcomes. One way we do this is by providing patient assistance grants to help families cover out-of-pocket expenses related to transplant.

Since 2011, **1,535 patients in Texas** have received financial assistance totaling **\$3,104,488 to help more patients** go through the transplant process. Of these patients, **26% were children.**

NMDP Network partners in Texas

TRANSPLANT CENTERS

- Methodist Hospital
- Children's Medical Center Dallas
- Medical City Dallas Hospital
- Texas Children's Hospital
- The University of Texas Southwestern Medical Center
- MD Anderson Cancer Center
- Baylor University Medical Center
- Cook Children's Medical Center
- Sarah Cannon Transplant & Cellular Therapy Program at St. David's South Austin Medical Center

APHERESIS CENTERS

- Cellular Life Solutions-NMDP Collection Center at Gulf Coast Regional Blood Center
- South Texas Blood & Tissue Center
- Carter BloodCare Dallas
- Carter BloodCare Rosedale

COLLECTION CENTER

- Houston Methodist Hospital

NMDP Chapters on campus

- Prairie View A&M University
- Sam Houston State University
- Texas A&M University at College Station
- Texas Southern University
- Texas State University
- The University of Texas at Austin
- The University of Texas Rio Grande Valley
- University of Houston
- University of North Texas

2025 Impact

- Since 1987, NMDP has facilitated nearly **150,000 transplants**. In 2025, NMDP **impacted 8,879 lives** through cell therapy.
- Today, patients have access to more than **43 million** potential donors worldwide.
- In 2025, NMDP provided **more than \$7 million** in patient assistance grants to more than **3,400 families**.

World-class partner

With the help of blood cell and marrow donors from the national registry and our extensive network of transplant partners, physicians and caregivers, we're expanding access to treatment so every patient can receive their life-saving cell therapy. We strive to deliver the best experiences and services as the essential partner in cell therapy and remove the barriers to transplant at all our locations.

- 4** domestic donor centers
- 39** domestic collection centers
- 56** domestic apheresis centers
- 158** domestic transplant centers
- 48** international cooperative registries

NMDP is a global leader in cell therapy

- **Entrusted by the federal government:** NMDP is one of the proud operators of the C.W. Bill Young Cell Transplantation Program (the national registry) since its inception.
- **NMDP finds cures and saves lives.** NMDP recruits donors and manages the national registry of volunteer blood cell and marrow donors.
- **We treat and cure over 75 diseases** through cell therapy.
- **Accelerating progress:** Our NMDP Donor for All initiative aims to safely unlock access to blood cell transplant through many innovative research efforts using partially matched donors. These advancements make transplants possible for patients who otherwise would not have had access to a suitable donor, while maintaining outcomes comparable to fully matched transplants.
